

Application No.: 10/690,595Docket No.: 2336-215**REMARKS**

The Examiner's indication of allowable subject matter of claims 3-12 is noted with appreciation.

Claims 2-22 are pending in the application. Allowable claims 4 and 9 have been rewritten in independent form including all limitations of base claim 1 in the manner kindly suggested by the Examiner in paragraph 5 of the Office Action. Claim 1 has been cancelled without prejudice or disclaimer. Claims 2-3 and 13 have been amended to depend from allowable claim 4. Claims 2-4 and 7-13 have also been amended to improve claim language without otherwise touching the merits. New claims 14-22 have been added to provide Applicants with the scope of protection to which they are believed entitled. The Abstract has been revised to be compliant with commonly accepted US patent practice. No new matter has been introduced through the foregoing amendments.

The art rejections manifested in the Office Action are either moot or believed overcome in view of the above amendments.

Claims 2-13 and new claims 19-22 corresponding to claims 9-12, respectively, all include the indicated allowable subject matter and should be allowed.

It should be noted that none of the applied references fairly teach or suggest the feature of the claimed internal antenna that the antenna has multiple radiation units/elements to resonate at no less than two different frequency bands. The feature is clearly recited in allowable claims 4 and 9 as well as in the newly added claims, especially new independent claim 14. New claims 14-18 should therefore be considered allowable over the applied references.

Accordingly, Applicants respectfully submit that all claims are now in condition for allowance. Early and favorable indication of allowance is courteously solicited.

Application No.: 10/690,595Docket No.: 2336-215

The Examiner is invited to telephone the undersigned, Applicant's attorney of record, to facilitate advancement of the present application.
